

Orange City Schools **saves over \$80,000** with our trusted & proven Telecom Analysis!

COMMTROL PARTNERS WITH OHIO SCHOOLS COUNCIL

The NEW Telecom Analysis – Why Now?

Phone companies are eliminating analog services – phone lines, alarms, and T-1 circuits – Prices for these services have increased drastically, and support has decreased – get rid of them now! We'll help you seamlessly eliminate services or transition to less expensive options – on your terms.

E-Rate funding cuts – in the past, deep discounts helped keep costs down. Not any more! Costs continue to rise, and discounts are going away. A thorough audit eliminates unneeded services.

Expiring contracts – don't be caught off guard with skyrocketing costs....we've seen increases as high as 1,300%! Costs for services are decreasing – we will help you negotiate the best service for the best price, BEFORE your contract expires.

Call Robert Glassman to set up a time to talk and discuss how Commctrl can help you control your costs.
