

****Updated 12/14/20 with new UV-C Light Disinfectant Devices****

OSC COVID-19 Supplies & Resources

The OSC has been working with our vendors and partners in an effort to provide members assistance in building sanitation and cleaning services as it relates to the COVID-19 pandemic. The OSC is proud to announce that we have many products and services available to our members. These products meet CDC standards for COVID-19. If your district is interested in purchasing, please refer to the product ordering info below. **Pricing and product availability may change based on demand.** **Please refer to ordering links below for updated info.**

UV-C LIGHT DISINFECTANT DEVICES

UV-C LIGHTING MANUFACTURERS DESCRIPTION AND ANALYSIS

The purpose of this study is to review and compare the disinfecting products (portable UV-C lamps) from (3) different manufacturers featured below. It is important to remember that UV-C light, when in contact with humans and animals, is very dangerous and safety measures should be put into place. Equipment emitting un-contained UV-C light (all 3 products reviewed) should only be used by staff who have been specifically trained to operate it safely.
