

# Tomahawk 2000, 3000 & 8000

## UV-C Lamps

The Tomahawk relies on UV-C technology to actively seek and destroy microorganisms in the air and on hard surfaces. The Tomahawk is able to decontaminate closed and open spaces with 99.9% effectiveness of destroying dangerous microorganisms like bacteria, viruses, and fungi.

---

Constructed using lightweight Carbon Steel

---

Portable, easy to move and reposition

---

Applicable in closed and open spaces

---

Remote operated

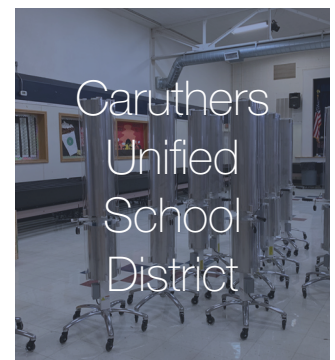

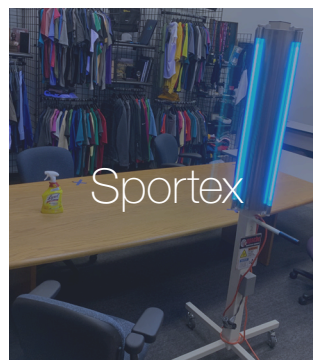

---

Four or Eight 30-Watt Germicidal UV-C Bulbs

---

110 – VOH Three-Prong Plug
