

Health-e Pro 

MORE THAN MENU PLANNING

Health-e Pro is the ultimate menu planning software for child nutrition programs and an OSC Preferred Partner. Cloud-based, intuitive, and easy to use, it gives foodservice directors the tools they need to run profitable and compliant programs. With tools that save time, save money, and keep programs compliant, directors can focus less on paperwork and more in the field doing what matters most: feeding students.

“Health-e Pro made it so easy to pull our production records, CN labels, and all the information we needed for review. Everything was right there at our fingertips.”

**JEANNE JEFFERS, DIRECTOR
PIKE-DELTA-YORK LOCAL SCHOOL DISTRICT**

TIME-**SAVING** MODULES

From menu planning to publishing to production, Health-e Pro keeps everything connected. Built-in compliance checks, pre-loaded data, and documentation work together to make updates simple and save you time.

RECIPES AND DOCUMENTATION

Access 5,000+ recipes and 20,000+ products in our database, complete with PFS, CN Labels, Buy American documentation, and nutrition information. Make menu planning easier with trusted vendors and foods students love.

DECISION- READY DATA

Get actionable insights into participation, costs, and sales trends. The Business Insights Dashboard shows meals served, food cost, labor efficiency, and menu popularity to help you improve performance and make smarter decisions.

FAST SUPPORT AND SERVICES

Team up with our expert support team of former school nutrition pros who understand your needs. From data entry to Admin Review prep, we're quick to respond and ready to help you keep your program running smoothly.
