School Safety Assessments & Inspections

CONTRACT AREAS

7

inspection & assessment services

Ensuring a safe and supportive learning environment is essential for every school community. Our team provides **comprehensive evaluations** that help districts identify risks, strengthen daily practices, and improve overall preparedness — with clear written findings you can act on.

01 Bleacher Inspections

Structural stability, seating, guardrails, anchorage, and signs of wear or corrosion — evaluated on-site, with written findings that support compliance with applicable standards.

02 Cybersecurity Assessments

A comprehensive review of your security posture to identify vulnerabilities, measure resilience, and align practices with industry standards and regulatory requirements.

03 Door Inspections

Doors with panic hardware, fire-exit hardware, special locking arrangements, and those in exit enclosures — inspected against safety standards, with reports to the school authority and local fire marshal.

04 Playground Inspections

Aligned with National Recreation and Park Association (NRPA) standards and certification: hazard identification, equipment specifications, surfacing, and risk management.

05 School Safety Assessments

A comprehensive assessment that identifies security gaps and reduces risk — culminating in an improved, written emergency operations plan for your district.

06 Emergency Plan Compliance

We ensure your plans are compliant and uploaded correctly to your district's SAFE account, along with other critical items such as your emergency management drills.

07 Weight Room Inspections

Evaluation of fitness equipment and spaces used by students and staff. Findings identify hazards, equipment wear, and layout issues to help reduce risk.

Need something else?

Tell us what you're worried about. If it isn't on this page, chances are one of our safety consultants has already done it. Contact Tom Dreiling to discuss.

School Operations, Training & Services

CONTRACT AREAS

8

consulting & training services

Behind every strong instructional day is a well-run building. Our operations team brings **practical, in-district expertise** to the work that keeps a district on-mission — from disposing of old equipment to training the staff that keeps kids safe.

01 Auction Services

Turn-key options for selling your district's used furniture, equipment, buses and vehicles. Let us handle the heavy lifting.

02 Bus Safety Training

Training that equips school transportation staff with practical strategies to keep students safe and respond effectively to emergencies.

03 Business Operations Consulting

A wide variety of comprehensive business consulting services that help your district implement new perspectives and solutions for a successful business program including, but not limited to staffing studies.

04 Digital Floor & Site Plans

Comprehensive floor plan creation with 360° photo capture — fully integrated into your school safety plans to support faster response and better collaboration with first responders.

05 Food Services Consulting

Comprehensive food-service consulting that helps your district implement, evaluate and improve successful food-service programs.

06 Leadership Consulting and Professional Development

Professional development for classified staff — teamwork, coaching, culture-building and other topics on request. Perfect for inservice days and calendar breaks.

07 Records Retention Services

Align records with Ohio Revised Code requirements and district board policies — for accurate, compliant, streamlined records management.

08 Safety Training Services

Active Threat • After School Preparedness • Behavioral Assessment • Cyber Security • De-escalation • Reasonable Suspicion • School Bus Driver Safety • Security Staff & Supervisor.

Professional Services Team.
